MORE.

Choose NRRTS Registrants to meet your complex wheelchair and seating needs.

[NRRTS]

NRRTS Registrants are competent professionals who provide Complex Rehab Technology, including wheelchairs, seating systems and other equipment to meet the needs of people with significant mobility and postural needs. They offer an exceptional quality of care using their knowledge, skill and experience to match the consumer's needs with appropriate equipment and available funding to address the individual's disability.

A NRRTS REGISTRANT...

- Is the only person eligible to identify himself/herself as Registered Rehabilitation Technology Suppliers* - RRTS*, or a Certified Rehabilitation Technology Supplier* - CRTS*.
- Combines extensive experience and demonstrated knowledge to qualify for the CRTS*.
- Attains and maintains his/her credential through extensive annual continuing education requirements.
- Maintains knowledge and expertise about ever-changing technology.
- Provides cost-effective products and services.
- Adheres to NRRTS' Code of Ethics and Standards of Practice as enforced by a formalized Complaint Resolution process
- Raises the standards of the industry and profession by representing the interests of Registrants, consumers, funding sources and clinicians in the Federal and State regulatory arenas.

NRRTS IS...

- NRRTS is a professional association of committed, skilled, experienced individuals who provide Complex Rehab technology and services to people with significant postural or mobility deficits. This technology includes wheelchairs and seating systems along with other enabling technology.
- NRRTS helps facilitate the well-being of the consumers our Registrants serve. NRRTS accomplishes this through credentialing and registration of individuals who supply Complex Rehab products and services; by enhancing the stature of the NRRTS Registrant through the persistent achievement of rigorous professional and ethical standards; and through industry cooperation and advocacy.
- NRRTS is committed to empowering consumer self-advocacy to assure access to appropriate technology.

NRRTS MISSION...

- Consumers can expect NRRTS Registrants to truly understand the Complex Rehab Technology service delivery process. NRRTS Registrants work with therapists, physicians, case managers and payers (like Medicaid, Medicare and private insurance) to assure that consumers get appropriate equipment to meet their functional and physiologic needs.
- Clinicians can expect NRRTS Registrants to be involved in the evaluation process and perform a technology assessment that matches the needs identified in the evaluation process to appropriate equipment.
- Case managers and payers can expect NRRTS Registrants to meet the functional and physiologic needs of the consumer in an ethical and cost-effective manner."
