

<b>Name of Speaker(s):</b> Mary Carol Peterson, OT
<b>Date of Presentation:</b> July 19, 2012
<b>Session Title:</b> Access to Fun! Recreation for all.
<b>Abstract/Description of Session:</b> This course will teach you what features define a sports wheelchair, who can benefit from them and how to measure for basketball or tennis like an expert. You will also gain information on handcycles for children and adults, targeting products that fit your patient's goals and abilities. Top End's extensive experience in building sport specific wheelchairs and handcycles has created an exclusive educational course to transfer that same knowledge to you. This course will help you to select the right products tailored to maximize your patients' return to meaningful recreation.
<b>Learning Objectives:</b> <ul style="list-style-type: none"> <li>• Understand the clinical benefits of participation in disabled sports</li> <li>• Learn how to select the appropriate options and specifications based on user ability, skills, and goals</li> <li>• Understand key components/benefits of sports wheelchairs and handcycles.</li> <li>• Equip attendees with the concepts and tools to get an individual "In the game."</li> </ul>
